## **Samujana Scoops Three Major Awards at the South East Asia Property Awards 2013**

**Samujana Awarded the 'Best Villa Development in South East Asia', 'Best Villa Development in Thailand' and 'Best Residential Architectural Design in South East Asia'**

Samujana, Koh Samui's most exclusive luxury lifestyle villa estate scooped the awards at the recent South East Asia Property Awards held at the Shangri-La Hotel in Singapore. Bringing together all of the region's top real estate developers, management companies, designers and visionaries; the South East Asia Property Awards rewards excellence in the World's most exciting and dynamic property development region. Samujana was the only villa development recognized from Thailand, with other nominees coming from Malaysia, Singapore, Vietnam, the Philippines and Indonesia.

Villas at Samujana are all designed by Gary Fell of GFAB Architects and are spacious, contemporary in design and sensitively constructed in harmony with the natural rock outcrops and indigenous vegetation. With services and experiences rivaling those of the best 5 star resorts on the island, Samujana offers a luxury lifestyle alternative to a more traditional resort stay.

Kurt Berman, General Manager of Samujana says, *"We are focussed on offering owners the very best return on their lifestyle investment. By operating as a boutique villa retreat with the provision of exemplary hospitality in such a stunning setting, we create an environment where owners and guests can discover a new state of mind. We are truly delighted to not only be recognized as the best villa development in Thailand, but also as the best villa development in south east Asia"*.

Gary Fell, of GFAB Architects says: *"I am absolutely delighted that Samujana has been recognised with a hat-trick of awards. Asia is at the cutting edge of property development and design and for Samujana to be recognised as the best in the region is truly humbling."*

With 38 award categories, over 500 nominations and 1,400 entries, this year's awards were more competitive than ever before.
